

Comanche Flyer COMANCH

By Lorne Harmon, CFF

In my last article about the Comanche Flyer Foundation (CFF), I concluded the article with a request for donations. It probably seems fair that if CFF is going to ask for donations, we ought to share with our donors how their money is being spent.

I have compiled some data that I think is enlightening in regards to CFF expenditures over the last few years.

Foundation Helps THE PILOTS

President, ICS #12436

As you see, CFF is working hard to help our members become better pilots and maintain their planes in the best fashion possible.

In addition to the numbers and categories listed, CFF is very much involved in the CPPP program. This program is enjoying great success, and I would encourage all of our Comanche owners to look into this training, as it can be very beneficial to one's flying skills and maintenance aptitude. The entire CPPP program was started through seed money furnished by CFF and a lot of generous effort by ICS member Zach Grant.

For the fiscal year 2010/2011, CFF has allotted \$9,000 for three \$3,000 scholarships to be awarded to young qualified students who are seeking their A & P license. Of course, it is our hope that these students, upon graduation, will continue to service general aviation airplanes, and, in particular, Comanches.

CFF also wants to again assist the tribes in 2011 to finance more maintenance seminars at their fly-ins.

If one wishes to donate to the Comanche Flyer Foundation, it can be done via check to CFF, P.O. Box 1810, Traverse City, MI 49685-1810, or through *PayPal*.
